21st November 1955]

(ii) The Commission also recommended that the increased cost under this head should be shared equally between the Central Government and the State Governments.

(iii) It was resolved that this recommendation be forwarded to the Ministry of Education for further necessary action.

C. It was further resolved that the question of revising the salary scale of teachers in technical institutions be considered at the next meeting of the Commission and that, in the meanwhile, information from the A.I.C.T.E. may be called for and placed before the Commission.

APPENDIX III.

G.O. No. 2879, Revenue, dated 16th September 1955.

[Irrigation—(Coimbatore)—Lower Bhavani Project—Damage to houses of banks of canals—Relief and rehabilitation measures —Orders passed.]

READ—the following papers :—

Reference from the Board of Revenue No. H. 1041/55–4, dated 1st July 1955.

Reference from the Board of Revenue, No. H. 1041/55–5, dated 23rd August 1955.

Order—No. 2879, *Revenue, dated* 16*th September* 1955.

The Government have examined the proposals of the Board of Revenue for providing relief and rehabilitation of the families affected by seepage from the Lower Bhavani Project Canal in Gobichettipalayam, Erode, Bhavani and Dharapuram taluks of Coimbatore district and they pass the following Orders :—

(*a*) *Provision of alternative house-sites.*—The Board as proposed that alternative house-sites may be granted (i) by utilizing the village-site poramboke available to the extent of 16·28 acres and other porambokes to the extent of 30·34 acres and (ii) by acquiring 200·89 acres of private lands at a cost of Rs. 53,195. The Board has recommended acquisition of the lands and their grant at the rate of 10 cents for pucca houses and 5 cents for kutcha houses and huts with an additional extent of 5 cents on payment of value, to families having more than six members and subject to the conditions that the sites and buildings thereon should not be alienated for ten years and the sites should be built upon within a period two years. The Government accept the Board's proposal and direct that the urgency provisions of the Land Acquisition Act be invoked in the acquisition cases and wherever possible, the sites to be acquired should be occupied immediately after obtaining consent-statements from the owners.

(*b*) *Grant of cash subsidy.*—The Board has proposed that a uniform cash subsidy of Rs. 100 be granted to all the 1,438 poor families without deductions being made when palmyra trees are given and irrespective of weather the habitation affected is a hut or a tiled house. The Government accept the Board's proposal.

(*c*) *Grant of palmyra trees.*—The Board has proposed that each poor family may be given palmyra trees on payment of ¼ of the seignorage rate subject to a maximum of three trees per family and that in addition to the 384 trees available at present, the Collector may grant trees in areas closeby. The Government accept the Board's recommendation subject to the presumption that it is not proposed to give any trees from the reserved forests;

[21st November 1955

and the condition that if trees are to be given from the reserved forest, the concurrence of the Chief Conservator of Forests should be obtained.

(*d*) *Grant of loans.*—Takkavi loans may be granted to all those families (Harijans or well-to-do caste ryots), who may be able to furnish adequate security in accordance with the rules. In addition to the grant of takkavi loans, the Board has suggested that the Community Project staff can assist and advise the Harijans and the poor persons to build up small and ventilated huts granting loans wherever necessary. The Government approve the Board's proposal.

(*e*) The Board has proposed that the work of acquisition and laying out of house-sites in suitable plots and allotment to each family may be entrusted to the four Special Deputy Collectors attending to the Land Acquisition work in the Lower Bhavani Project. The Government accept the Board's proposal.

(*f*) The Board of Revenue has stated that the relief measures have become necessary only because of the Project and has therefore proposed that the expenditure on these rehabilitation proposals should be debited to the project. The Government accept the Board's recommendation.

(*g*) The Government agree with the Board's view expressed in its reference second read above to the effect that no further action is called for in the specific cases mentioned by the Collector.

(*h*) In the case of Elathur village of Gobichettipalayam taluk and Iyyamparappu, hamlet of Kanjikoil village of Erode taluk, the Board has proposed that the persons may be given house-sites on payment of market value and also loans on adequate security in accordance with the rules, and that the Public Works Department may take separate action for acquisition in these cases. The Government accept the Board's proposal.

(*i*) The Government also agree with the Board of Revenue that the present sites to be abandoned by the owners need not be acquired by Government. The owners may be left to remove and utilize the materials in the houses or huts and to use the land in the manner they find convenient.

(By order of the Governor)

S. K. CHETTUR,
Secretary to Government.
